1. Experiential learning:

1.1. Internship: As a part of curriculum, it is mandatory for the students to go for the internship during semester gaps. It is the best way to relate classroom knowledge with practical experience.

To
The Director T&P,
Einstein Academy of Technology and Management,
Baniatangi, Khordha

Dear Sir,
TECHNOSYS PVT.LTD is pleased to offer an educational internship to the following Electrical Engineering students of your esteemed institute from **10TH DEC 2022 TO 15TH JAN 2023**. During this period your students will be designated as "INTEMEES" at our company.

Sl.No.	Name of the Students	Regd.No.	Year
1	Manoj Mondal	2101322173	2ND
2	Prabudatta Lenka	2101322174	2ND
3	Sunil Kumar Mallick	2101322175	2ND
4	Jayaram Sahoo	2101322267	2ND
5	Akash Patra	2001322121	3RD
6	Badal Raul	2001322122	3RD
7	Maheswar Sahoo	2001322208	3RD
8	Manoj Kumar Behera	2001322209	3RD
9	Pralaya Kandi	2001322210	3RD

TERMS AND CONDITIONS

- I. During internship, the intemees will be governed by the prevailing safety guidelines of the company.
- II. Certificates will be provided after successful completion of internship program and submission of completion report.
- III. No financial assistance will be provided to any intemees during this period

Sincerely,

V. Purushothaman

Industrial Visit Notice

It is hereby informed to all the 4th Year B.Tech Mechanical students that our institute has organized an industrial visit on 16th May 2023(Tuesday). This visit aims to provide you with practical exposure to various industrial processes and operations, aligning with our commitment to holistic education.

Details of the industrial visit are as follows:
Date: 16th May 2023(Tuesday)
Departure Time: 6:00 AM (From College Campus)
Destination: CTTC BBSR
Mode of Transportation: Bus No-5 & 6

The purpose of this visit is to acquaint you with real-world applications of theoretical concepts that you learn in classrooms. It will also offer an opportunity to interact with industry professionals, observe industrial practices, and gain insights into the functioning of industrial setups.
To ensure the success of this visit, we kindly request your cooperation in ensuring that you attend the tour punctually and adhere to all the guidelines set forth by the institute. Additionally, do ensure that you are appropriately dressed with college uniform and carries necessary items such as your identity card, writing materials and water bottles.

Two staffs from the Mechanical Department, named Prof Arupnanda Mohanty & Mr Bibhuti Barad Biswal have been designated to accompany the students and oversee their activities during the trip. Feel free to contact the designated faculty members in case you have any concerns.

We sincerely believe that experiences such as these contribute significantly to your overall development and we seek your cooperation in making this industrial tour possible.

Sub: Seeking Permission for Industrial Site Visit – Reg

Einstein Academy of Technology And Management, an ISO 9001-2008 & NAAC Accredited Engineering College runs under the auspices of Udayanath Educational & Charitable Trust, Bhubani which is spread over 25 acres of lush green land amidst picturesque surrounding that adds spice scenic beauty and create a tranquil atmosphere at Baniatangi, Khurda. The aesthetically designed with eximious infrastructure, dedicated and ebullient faculty members, Einstein Academy epitomized itself as the flagship among all emerging engineering colleges and carved a niche for it a modern day Gurukul.

On behalf of EATM, I am writing this letter for getting your permission to conduct an industrial site visit to your organization on **28th December, 2023**. The department of civil engineering has decided to give some practical education to students in the field of the construction. For that, your organization is the best option for carrying such visit. For this, we need your esteemed support.

Looking forward to your positive response.

Thank you

Subject: One day industrial visit by the students of Computer science Engineering Branch

Dear Sir,

In inviting reference to the above cited subject, I would like to inform you that the following 15 number of students of Computer science Engineering Branch are keenly interested to visit the CSM Technologies Pvt. Ltd. Level 6, OCAC Tower, Bhubaneswar Odisha on 10 Dec 2022 for the industrial visit. Such kind of visit is a mandatory part of the Academic curriculum activity, as prescribed by Biju Patnaik University of Technology, Govt. of Odisha. Along the students two number of our faculty members will remain with the students as their escorts.

If our students are permitted to visit for the above said purpose, then Bus No.5 of EATM will be available for the transportation of the students and faculty members.

You are requested to be kind enough in granting the permission for the said purpose by virtue of which the students will get a chance to learn many things about the communication engineering and its real life application.

Thanking You

Sub: One day industrial visit by the students of Electronics and communication Engineering Branch

Dear Sir,
In inviting reference to the above cited subject, I would like to inform you that the following 40 number of students of Electronics and Communication Engineering Branch are keenly interested to visit the Paradip Port, Paradip, Jagatsinghpur on 10th April 2022, against the industrial visit. Such kind of visit is a mandatory part and parcel of the Academic curriculum activity, as prescribed by Biju Patnaik University of Technology, Govt. of Odisha. Along the students 2 number of our faculty members will remain with the students as their escorts.

If our students are permitted to visit for the above said purpose then Bus No.5 of EATM will be available for the transportation of the students and faculty members.

You are requested to be kind enough in granting the permission for the said purpose by virtue of which the students will get a chance to learn many things about the communication engineering and its real life application.

Thanking You
With Regards

 DEPARTMENT OF ELECTRONICS & COMM. ENGINEERING

TITLE OF THE PROJECT : HOSPITALITY ROBOT FOR SERVING HUMAN Supervised By: Asst. Prof. K.PITAMBAR PATRA

Group -02:- ARJUN KUMAR PANDIT, JHASKETAN SA, MADHUSMITA PALAI, MOUSMITA DALAI, SATYA PRAKASH SAHOO

ABSTRACT

- ❖ In today's world the use of robot is going on increasing. Robots are able to carry out every work more effectively and efficiently than a man can do. Hence one of such application of robot could be SERVING ROBOT.
- ❖ There are many areas of research that could be done for a serving robot.
- ❖ In this work we have tried to demonstrate a prototype of Autonomous Serving Robot which serve the food to the customer and serve medicine in hospitals and many more.

WORKING PRINCIPLE

- ❖ The wireless technology (Android based Bluetooth Technology) is used to give the indication of presence of the customer as well as the order received at the counter section is also done by making use of Bluetooth technology.
- ❖ The main idea of this paper is to design a robot or an agent that can do the job serving human. The problems regarding Increased waiting time can be handled with the help of this "serving Robots".

INTRODUCTION

- ❖ In recent years, robotic technology has been focused to develop on wide range of applications from military to civil and industrial. Among them, wheeled mobile robot is the most common type of robot that is developed for consumer purpose.
- ❖ The mobile robot is maximized its efficiency by integrating smart sensors, image processing technology, GPS, and so on. However, when the mobile robot operates in a flat and narrow space.

OBJECTIVES

- ❖ To design a prototype of robot which can help to serve food in restaurant, medicines in the hospitals and in the apartment or in some gated communities to deliver a food or food items.
- ❖ To be more clear and precise the present project is not for a specific use rather it has multiple uses as well.

COMPONENTS REQUIRED

- ❖ Ultrasonic sensors, battery,
- ❖ Arduino, Motors,
- ❖ Servo robot,
- ❖ PWM,
- ❖ PIC18F4550

CONCLUSION

- ❖ This project helps in reducing the lack of human resources to serve in restaurants. The Robot is cost effective once we built later just maintenance is required. In the future work the innovation of the hardware and software components will be done. This model can be used in the hospital to serve a food and medicines for the patients, and in the apartment.

Poster presentation made by ECE Final Year Students for the project demonstration on titled "Hospitality Robot for Serving Human"

EINSTEIN ACADEMY OF TECHNOLOGY AND MANAGEMENT, BHUBANESWAR

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

TITLE OF THE PROJECT: IOT BASED HOME AUTOMATION SYSTEM

SUPERVISED BY: ASST. PROF. Miss. Subhadra Biswal

Group-12:- SIDDHANTI BHOI, GEETA DALAI, CHANDAN KUMAR MAHALIK

ABSTRACT

In today's world the use of IOT is going on increasing. Robots are able to Hence one of application of robot could be SERVING ROBOT carry out every work more effectively and efficiently than a man can do. There are many areas of research that could be done for a serving robot. In this work we have tried demonstrate a prototype of Autonomous Serving Robot which serve the food to the customer and serve medicine in hospitals and many more

WORKING PRINCIPLE

The wireless technology (Android based Bluetooth Technology) is used to give the indication of presence customer as well as the order received at the counter section is also done by making use of Bluetooth technology.

The main idea of this paper is to design a IOT or an agent that can do the job serving human. The problems regarding Increased waiting time can be handled with the help of this "serving Robots".

INTRODUCTION

In recent years, IOT technology has been focused to develop on wide range of applications from military to civil and industrial. Among them, wheeled mobile robot is the most common type of robot that is developed for consumer purpose. The mobile IOT is maximized its efficiency by integrating smart sensors, image processing technology, GPS, and 10 on. However, when the mobile robot operates in a flat and narrow space.

OBJECTIVES

To design a prototype of IOT which can help to serve food in restaurant medicines in the hospitals and in the apartment or in some gated communities to deliver a food or food items. To be more clear and precise the present project is not for a specific use rather it has multiple uses as well.

COMPONENTS REQUIRED

Ultrasonic sensors
 Arduino, Motors,
 Servo robot,
 PWM,
 PIC18F4550

CONCLUSION

This project helps in reducing the lack of human resources to serve in restaurant The IOT is cost effective once we bulk laser just maintenance is required. In the future work the innovation of the hardware and software components will be done This model can be used in the hospital to serve a food and medicines for the patients and in the apartment.

EINSTEIN ACADEMY OF TECHNOLOGY AND MANAGEMENT

Approved by AICTE, Affiliated to BPUT Odisha
At: Baniatangi, PO: Bajapur, Khurdha, PIN: 752060
Bhubaneswar

Poster presentation by EEE Students

1.4. Technical Events: Students’ participation in the events like Hackathons, Tech-fests, Workshops, seminars etc. give immense knowledge in the field of engineering and technology, management to face real-life problems.

Students participated in the competition “Bot Burn Out”, held at KIIT University and won 2nd prize in it.

Students, participating in the RoboWar, conducted in ITER BBSR

#Hackathon
Students, participating in the event “Hackathon”, conducted in our college premises

EINSTEIN ACADEMY OF TECHNOLOGY AND MANAGEMENT

Approved by AICTE, Affiliated to BPUT Odisha
At: Baniatangi, PO: Bajapur, Khurdha, PIN: 752060
Bhubaneswar

Students participating in the event “Waste Water Treatment”, held at Capital Engineering College Bhubaneswar

Students participating in the event “Suspension Bridge”, held at GIFT College

Students, Participating in the ROBO SOCCER event at KIIT University

Students, participating in Robo Soccer Event Competition, held at IIT BBSR

Students, Participating in the “Path Discovery” event at IIT BBSR

Students participated in various technical events held at IIT BBSR

Students, participating in Robo War Event Competition, held in IIT BBSR

Students, participating in the Event conducted by SAE Club of IIT BBSR
