ACTIVITY REPORT

PLANTATION DRIVE IN NEAR BY VILLAGE

Held on: 02/03/2023

Venue: Rairanga village

Organized by: NSS EATM

Scheme: GREEN INITIATIVE

No of Students participated: 64

No of Faculty members involved: 16

Considering the manifold benefits of trees, including that they release oxygen into the air, absorb unpleasant odours as well as harmful gases such as carbon dioxide, carbon monoxide and sulfur dioxide from the air and purify it, protect us from dangerous ultra-violet rays, provide us with food and the pivotal role played by trees in preventing soil erosion, maintaining ecological balance and most especially in lessening the effects of global warming, the EATM NSS team conducts tree plantation drives twice a year. Over the last one and a half years, more than 1,000 plants in nearby villages under Bajapur panchayat, Khordha.

Tree plantation is not just something that should be done; instead, it is a necessity, the urgent need of the hour. Planting of trees is especially important to protect our environment against air pollution and global warming. To this end, our young volunteers have been actively involved in organizing tree plantation campaigns.
